Beutel Goodman Global Equity Fund

Management Discussion of Fund Performance

Investment Objectives and Strategies

This Fund invests in common shares and other equity securities of established global issuers.

The Fund's advisor selects equity securities from a universe of potential candidates whose management have consistently demonstrated a commitment to create shareholder value without undue financial leverage. A value approach is applied, and research is directed to identify stocks which can be purchased at a reasonable price by analyzing relative valuation measures such as the issuer's price/earnings, price/cash flow and price/book value relative to its own history, the overall market and to its sustainable earnings growth rate.

The Fund may invest in underlying Funds from time to time. Please refer to the Simplified Prospectus for additional information.

The fundamental investment objective of the Fund cannot be changed without the approval of a majority of the investors who own units in the Fund.

Risk

The risks of investing in this Fund remain as discussed in the Prospectus.

This Fund continues to be suitable for investors seeking long-term capital appreciation in global issuers with a medium tolerance for risk and a long-term investment horizon.

Results of Operations

The Beutel Goodman Global Equity Fund significantly outperformed its MSCI World (C\$) Index benchmark for period under review. The MSCI World (C\$) Index advanced over the period, led regionally by Europe ex UK, the Pacific region and Japan. The U.S. underperformed for the period.

As central banks tightened monetary policy and the U.S. Federal Reserve started to unwind its balance sheet, markets took their cue more from economic data than from central bank extraordinary stimulus. Global growth was buoyant, global PMIs trended higher, the U.S. labour market was robust, and consumer spending was resilient. The one piece of economic data that continued to disappoint was the lack of wage growth and inflation. While 2016 was all about headline risk (Brexit, Trump election), for the most part markets ignored the headlines in 2017. The concern that the euro zone would lay the seeds of its own destruction dissipated as the numerous European elections failed to deliver victories for the far right, euro skeptic parties. While failing to deliver a new health care bill, the Trump Administration was successful in getting its tax reform passed and threats of government sequestration and breaching the debt ceiling were kicked down the road into 2018. The U.S. Federal Reserve followed through on hiking the Federal Funds rate three times, in line with their projections, and commencing the unwind of their balance sheet.

After moderation in Q3, positive Chinese trade data signaled a solid demand backdrop and a strong domestic economy. Growth is expected to moderate in the next few years as policies to reduce both financial risks and pollution are implemented. China's economic growth target remains at 6.5% for 2018, unchanged from 2017. Japan's economic outlook also continues to strengthen. In October, Shinzo Abe was re-elected as Prime Minister of Japan with a supermajority, which propelled the Japanese market higher due to his favourable view on continued stimulus.

The Fund's outperformance was primarily attributable to stock selection. The largest positive effect from stock selection came from the Financials sector. DBS was a significant contributor over the period, as investors gained comfort that the oil and gas loan issues are behind them. Julius Baer added value on results that showed healthy asset growth and Deutsche Boerse performed well post the collapse of the deal to combine with LSE, aided further by more clarity on the company's stand-alone growth plans. U.S. Financials holdings also added value, with Ameriprise and American Express as main contributors. Ameriprise benefitted from net new money inflows, strong markets, and continued growth in its wealth management business. American Express gained significantly on improving sentiment and business fundamentals, as the Costco loss has now been annualized. In Telecommunications, Vodafone and Telefonica Deutschland outperformed following important consolidation in Germany, arguably their most important market, as well as strong operational results. KPN also outperformed as signs of easing competitive pressure emerged in its market. Selection in Industrials also added value due to strong contributions from IMI and Parker Hannifin, with the latter outperforming on strong sales growth and corresponding margin improvement reflecting its highly efficient business model.

The Fund's sector allocation effect was neutral over the period, as positive effects from underweights in Energy, Utilities and Real Estate and an overweight in Materials were offset by negative effects from an overweight in Telecommunications.

During the year, the Fund sold positions in FamilyMart, Sky, BNP Paribas, Teradyne, Unilever, Baxter, Bayer, Procter & Gamble, JPMorgan, Richemont, Deutsche Boerse, Symantec and Norsk Hydro and added positions in Luxottica, Omnicom, Software AG, Akxo Nobel, Autozone, LyondellBasell, Smith & Nephew, Roche, Caltex, Harley-Davidson and WPP. A number of holdings hit their targets prices over the period and the Fund completed process driven one-third sales in Atea, Teradyne, Konecranes, American Express, Ameriprise Financial and DBS Group.

Detailed performance is provided under the heading "Past Performance" in this report.

Recent Developments

Global equity markets rallied strong in the year of 2017 and reached multi-year highs across many countries. The surprisingly synchronized global economic growth was the key reason behind the strong market movements. While no major economies are expected to grow at a particularly fast speed, all of them continue to show positive signs of improving growth momentum. In the U.S., the much anticipated tax reform seems within reach and may further strengthen business and investment confidence. In Europe, domestic consumption and construction show strong potential to catch up, after the EU political environment improved through the last two years. In Japan, inflation has finally showed up as a result of the record high employment and rekindled hope of triggering a new business investment cycle. China looks poised to return to the growth path the government charted out after its recent policy meetings. Even the Brexit-troubled UK has maintained a decent GDP growth outlook. Overall, global growth is likely to be robust and broad-based in 2018.

Beutel Goodman Global Equity Fund

On the other hand, monetary policy and financial conditions are expected to get tighter, as central banks in developed countries are turning away from their quantitative easing programs and entering a tapering phase. It's unpredictable whether the tapering process will have a visible impact on the real economy or the equity markets in the near term, and the long term impact is less than clear.

Given the relatively slow but steady economic recovery thus far, share price returns have run ahead of corporate revenue and earnings growth, leaving the record-breaking market performance to be driven by significant margin expansion and/or valuation multiple expansion. 2017 certainly saw market enthusiasm in some new technology areas, such as artificial intelligence, self-driving/electric vehicles, and cryptocurrencies, to name a few. The frenzy in those areas also led to a market rotation out of some strong, well-established (but "boring") businesses, offering the portfolio manager opportunities to invest into those highly cash-generative businesses at unusually low valuations and always with their required high hurdle rate of return. At the same time, the portfolio manager is applying a sharpened focus on downside risk mitigation to all portfolio investments. During the period the Fund's consistently applied valuation discipline and investment process prompted it to trim or exit positions in the Fund as they reached their targets. These have been replaced with new names with high quality businesses at compelling valuations, enhancing the portfolio manager's confidence that the fund is well positioned for the long term.

Related Party Transactions

Beutel, Goodman & Company Ltd. is the Portfolio Advisor to this Fund. The Fund did not rely on any recommendation or approval of its Independent Review Committee to proceed with any transaction involving related parties because it did not conduct any related party transactions, except for certain inter-fund trades, as approved by the Independent Review Committee by standing instructions, and subject to regulatory requirements.

Fees and Expenses

The following table lists the fees and expenses that you may have to pay if you invest in the Beutel Goodman Managed Funds. You may have to pay some of these fees and expenses directly. The Funds pay the other fees and expenses. This will reduce the value of your investment in a Fund.

Management Fees: We are entitled to a management fee from each class of each Fund based on the average daily net asset value of the particular class. The fee is payable monthly, in arrears, and is calculated at the annualized rate specified for each class of each Fund below. Management fees for Class I units are negotiated and paid directly by the investor, not by the Fund, and, therefore, are not listed.

Fund	Class	Management Fees (%) ⁽¹⁾
Global Equity Fund	B	1.90
Global Equity Fund	D	1.25
Global Equity Fund	F	1.00

(1) Excludes GST/HST where applicable.

We may reduce our management fee for certain large investors who have substantial holdings in units of a Fund. To accomplish this, we reduce the management fee we charge to the Fund and the Fund pays out the difference to these investors as a special distribution. This is called a management fee distribution. We calculate and accrue the reduction daily and distribute it quarterly. The distribution is reinvested on behalf of such unitholders in additional units of the same class of the Fund. Management fee reductions for a unitholder may be increased at any time, but may only be decreased after at least 60 days prior written notice has been given to such unitholder.

We may waive our management fee in certain circumstances.

The Fund paid the Manager management fees, inclusive of HST, of \$29,472 for the year ending December 31, 2017. The management fee for each class of unit is calculated as a percentage of its net asset value, as of the close of business on each business day. The Fund's management fees were used by the Manager to pay costs for managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio and providing other services. The Manager also used the management fees to fund commission payments and other dealer compensation (collectively called "distribution-related costs") to registered dealers and brokers and financial consultants, for units of the Fund bought and held by investors, which amounted to 28.12% of total management fees paid by the Fund to the Manager in 2017.

Operating Expenses: The Manager pays certain operating expenses of the Fund. These expenses include audit and legal fees; custodian and transfer agent fees; costs attributable to the issue, redemption and change of units, including the cost of the security holder record-keeping system; expenses incurred in respect of preparing and distributing all regulatory reports; fund accounting and valuation costs; independent review committee fees and filing fees, including those incurred by us. In return, the Fund pays the Manager a fixed administration fee. The administration fee may vary by class of units and by Fund.

Please refer to the Financial Highlights section for the MERs of the classes of units.

Commissions

Commissions paid to brokers for portfolio transactions were as follows:

Fund	2017	2016
Global Equity Fund	\$473,359	\$627,111

Beutel Goodman Global Equity Fund

Financial Highlights

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the past 5 years ended December 31. This information is derived from the Fund's audited annual financial statements and is provided for each class of units.

Financial Highlights for Class B Units

Beutel Goodman Global Equity Fund

- (1) The information for December 2017, December 2016, December 2015, December 2014 and December 2013 is derived from the Fund's annual audited financial statements prepared in accordance with IFRS.
- (2) Net assets attributable to holders of redeemable units per unit and distributions to holders of redeemable units per unit are based on the actual number of redeemable units outstanding for the relevant class at the relevant time. The increase (decrease) in net assets attributable to holders of redeemable units per unit is based on the weighted average number of redeemable units outstanding for the relevant class over the fiscal year.
- (3) Distributions were paid in cash or automatically reinvested in additional redeemable units of the Fund.
- (4) This is not a reconciliation of the beginning and ending net assets per redeemable unit.
- (5) This information is provided as at year end of the year shown.
- (6a) Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily net asset value during the year.
- (6b) The Manager may have absorbed some of the fund expenses. If this had occurred, the management fee ratio before any such absorption is listed. The Manager may terminate the absorption at any time, at its discretion. It is not known when such absorptions will be terminated.
- (7) The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the fiscal year. The higher a Fund's portfolio turnover rate in a year, the greater the trading costs payable by the Fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a higher turnover rate and the performance of a Fund. Portfolio turnover rate equals the lesser of purchases or sales divided by the average value of the portfolio securities of the Fund on a monthly basis, excluding short-term securities.
- (8) The trading expense ratio represents total commissions and other portfolio transaction costs disclosed in the Statements of Comprehensive Income expressed as an annualized percentage of daily average net asset value of the Fund during the year.
- (9) The information for December 2017, December 2016, December 2015, December 2014 and December 2013 is derived from the Fund's annual audited financial statements prepared in accordance with IFRS. For the years ended December 31, 2017, December 31, 2016, December 31, 2015, December 31, 2014 and December 31, 2013, the information provided for processing unitholder transactions is consistent with the information provided for reporting purposes.

Past Performance

The past performance of each class of units of a Fund, if the class has been in continuous existence and offered to the public for at least 12 months (at the date of this document), is explained under the Year-by-Year Returns, and Annual Compound Returns headings found on the next page. In years where the class of a Fund has less than 12 months of performance data, the annual rate has been annualized.

The performance returns in all cases:

- are calculated as of **December 31** in each year;
- assume **all distributions** made by the Fund are **reinvested** to purchase additional redeemable units; and
- show the returns of the particular class of the Fund after any applicable management fees and operating expenses have been deducted, **but are not reduced by any redemption charges, optional charges or income taxes payable by you.**

Please remember that the past performance of the Fund is not an accurate prediction of future returns.

Beutel Goodman Global Equity Fund

Year-by-Year Returns

Class B

Class D

Class F

Class I

Annual Compound Returns

The following table shows the historical annual compound total return, as compared to the performance of the MSCI World (C\$) Index.*

Class B	Since Inception	Past 5 Years	Past 3 Years	Past Year
Beutel Goodman Global Equity Fund – Class B	12.37%	13.76%	11.97%	17.80%
MSCI World (C\$) Index	13.97%	16.89%	12.08%	14.15%

For Class B units of the Fund, a return calculated since its inception of July 6, 2011 and ended December 31, 2017, for the past five, three and one year periods ended December 31, 2017 has been provided.

Class D	Since Inception	Past 5 Years	Past 3 Years	Past Year
Beutel Goodman Global Equity Fund – Class D	13.15%	14.51%	12.69%	18.58%
MSCI World (C\$) Index	13.97%	16.89%	12.08%	14.15%

For Class D units of the Fund, a return calculated since its inception of July 6, 2011 and ended December 31, 2017, for the past five, three and one year periods ended December 31, 2017 has been provided.

Class F	Since Inception	Past 5 Years	Past 3 Years	Past Year
Beutel Goodman Global Equity Fund – Class F	13.43%	14.79%	12.97%	18.86%
MSCI World (C\$) Index	13.97%	16.89%	12.08%	14.15%

For Class F units of the Fund, a return calculated since its inception of July 6, 2011 and ended December 31, 2017, for the past five, three and one year periods ended December 31, 2017 has been provided.

Class I	Past 10 Years	Past 5 Years	Past 3 Years	Past Year
Beutel Goodman Global Equity Fund – Class I	8.50%	16.16%	14.31%	20.27%
MSCI World (C\$) Index	7.55%	16.89%	12.08%	14.15%

For Class I units of the Fund, a return calculated for the past ten, five, three and one year periods ended December 31, 2017 has been provided. The fund was not a reporting issuer for the period since its inception of July 1, 1995 to July 6, 2011. The expenses of the Fund would have been higher during such period had the Fund been subject to the additional regulatory requirements applicable to a reporting issuer. The financial statements of the Fund for such period are available to Class I investors upon request.

* The MSCI World (C\$) Index is designed to represent the global equity market.

Asset Mix

Beutel Goodman Global Equity Fund

Other Material Information

Classes of Units: Each of the Funds in the Beutel Goodman family of Funds issues Class B, Class D (formerly Class A), Class F and Class I units, with the exception of the Beutel Goodman Fundamental Canadian Equity Fund, Beutel Goodman Global Dividend Fund and Beutel Goodman Short Term Bond Fund, which issue only Class B, Class F and Class I units. Expenses of each class are tracked separately and a separate net asset is calculated for each class.

The Beutel Goodman Global Equity Fund is available in 4 classes of units: Class B, Class D (formerly Class A), Class F and Class I.

Each Fund may issue an unlimited number of classes of units and may issue an unlimited number of units of each class. The different classes of units of a Fund represent an interest in the same portfolio investments of the Fund.

Class B Units: for retail investors investing a minimum of \$5,000 in a Fund through authorized third-party dealers;

Class D* Units: for retail investors investing a minimum of \$5,000 in a Fund;

Class F Units: for investors investing a minimum of \$5,000 in a Fund, who are enrolled in a dealer-sponsored fee-for-service or wrap program (where various mutual funds are bundled together) who are subject to a periodic asset-based fee, rather than commissions on each transaction and whose dealer has signed a Class F agreement, or any other investors for whom we do not incur distribution costs, such as our employees (or affiliated corporations);

Class I Units: for investors who have invested a minimum of \$500,000 in a Fund and who have entered into an investment management agreement with us. At our discretion, we may waive the investment minimum.

* Class A units distributed under prior simplified prospectuses have been renamed "Class D" units as of August 13, 2010.

Additional Information

Independent Review Committee

Beutel Goodman Managed Funds Inc., the former Manager of the Beutel Goodman Managed Funds, appointed an Independent Review Committee ("IRC") on May 1, 2007, for each of its public mutual Funds in accordance with the Canadian Securities Administrators' National Instrument 81-107. This Instrument has been designed to promote investor protection in mutual funds. Effective January 1, 2013, as the result of the amalgamation between Beutel Goodman Managed Funds Inc. and Beutel, Goodman & Company Ltd., Beutel, Goodman & Company Ltd. is the Manager of the Beutel Goodman Managed Funds. The IRC actively assumed its role and responsibilities on November 1, 2007. The IRC oversees conflict of interest matters that may arise out of the management of each of the Funds by providing its recommendations or approvals, as required, to the Manager on how these conflicts may be fairly resolved. The IRC for each of the Beutel Goodman Managed Funds consists of three industry professionals, none of whom have an interest in the Funds or Beutel, Goodman & Company Ltd. outside of their roles as members of the IRC. The IRC 2017 Report to Unitholders is available on the Beutel Goodman Managed Funds' website at www.beutelgoodman.com or at the unitholder's request, at no cost, by contacting Beutel, Goodman & Company Ltd. at mutualfunds@beutelgoodman.com.
